RECHARGE REIMAGINE RISE

AMCHP 2027

March 6 – 9, 2027 | Washington, DC

Dear State and Jurisdiction Health Agency Leaders,

On behalf of the Association of Maternal & Child Health Programs (AMCHP) and its local, state, and national partners, I would like to thank you for your continued support in making AMCHP's Annual Conference one of the largest gatherings of MCH professionals in the country. I would also like to encourage you to continue supporting your Title V maternal and child health (MCH) staff member, children and youth with special health care needs (CYSHCN) staff member, and Family Delegate to attend the upcoming conference **March 6-9, 2027**, in Washington, DC.

Our 2027 conference theme is *"Recharge, Reimagine, and Rise."* In a time of profound transition, we gather to rejuvenate and renew our commitment to children, families, communities, and one another—creating space for healing, meaningful interactions, and the kind of generativity that sustains us through challenging times. Together, we will ask: What's empowering and fulfilling us through turmoil? What's keeping us here? Together, we can reimagine our relationships, catalyze innovation, and build momentum for action in response to emerging issues and new possibilities. Making change is hard, but change is coming. In fact, change is here. By imagining what is possible and rising to meet this moment, we can shape a more responsive and resilient future for maternal and child health.

AMCHP's Annual Conference is a critical investment in the ongoing professional advancement of your MCH, CYSHCN, and Family Delegate staff that aims to provide them with tools to guide your agency in achieving its goals. At the end of the conference, our goal is that your state or jurisdiction attendees acquire valuable information to address the key challenges MCH program and families face. Additionally, we look forward to discussing emerging issues in your state or jurisdiction, learning how others are addressing current challenges, and participating in many opportunities to recharge, reimagine, and rise.

The 2027 AMCHP Annual Conference will be held **March 6-9, 2027**, at the Westin Washington DC Downtown, 999 9th Street NW. The conference is an in-person event with workshops, skills-building sessions, lightning presentations, discussion sessions, and student and early-career grand rounds. Early Bird Registration is available through **January 16, 2027**; successful registration included the link to book in the conference block at the hotel.

We appreciate your willingness to invest the time and funding to send representatives from your team to the Conference. We firmly believe that the return on that investment will come from increased capacity among your team members to improve the health and well-being of families. I hope you will support this opportunity for your team members to participate in what will be an exceptional event. If you have any questions or would like additional information, don't hesitate to get in touch with me at jacqueline.johnson@tn.gov.

Most sincerely,

Jacqueline Johnson

Jacqueline Johnson, MPA
Board President, AMCHP
