

As a sponsor accredited by the Accreditation Council for Continuing Medical Education (ACCME), AAPM&R must ensure balance, independence and scientific rigor in all of its sponsored educational activities. Anyone in a position to control the content of an activity (i.e., all participating planners and faculty) must disclose all financial relationships (of any amount) from the past 24 months, with any ineligible company to AAPM&R. The ACCME defines an “ineligible company” as any entity whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. Prior to the planning and development of this activity, all relevant financial relationships were mitigated, and relevant disclosures from persons in control of content are listed below.
