

PILLARS OF THE PROGRAM

- **Experiential Learning:**
Actively contribute to projects and meetings that result in impactful business outcomes.
- **Exploring Company Culture:**
Gain a better understanding of the day-to-day life of a Wolfspeed Employee.
- **Making Connections:**
Grow a professional network as you interact with peers, managers, and senior leaders.
- **Having Fun:**
A full summer calendar of events and opportunities to build connections and immerse yourself in the Wolfspeed community.

“The combination of Wolfspeed’s **strong industry presence**, commitment to **innovation** and **sustainability**, emphasis on **research** and **development**, and positive company culture made it a compelling choice for me.”

PALAK WADEL | CUNY BARUCH COLLEGE

WE ARE

We're leading the transition from Silicon to Silicon Carbide (SiC) and GaN as we shape the future of semiconductor markets. After more than 35 years of forging new technology adoption and transformation, our Wolfspeed® power semiconductors are leading the industry through unrivaled expertise and capacity. Simply put, we save the world energy by powering more while using less.
