

WE'RE HIRING

FIELD SERVICE ENGINEERS

Spang Power Electronics, a division of Spang & Company, has multiple openings for entry-level **Field Service Engineers** based in **Sandy Lake, PA** or **Mentor, OH**. Relocation assistance is available.

Spang Power Electronics is a premier provider of high-quality power solutions and proprietary technology for the world's most critical industries. We design and manufacture systems and products for industrial control applications all over the world, specializing in SCR Power Controllers, custom Transformers, and AC/DC Power Systems. Spang Power Electronics has locations in Mentor, OH, Sandy Lake, PA, and Xiamen, China.

In this position, you will utilize your degree in a hands-on manufacturing environment and travel extensively, both domestically and internationally to install, service, repair, test, and start up our products and systems. Our systems and products have a wide range of applications including automotive, hydrogen, glass, fibers, coatings, industrial heating, and many more.

Qualifications include a bachelor's degree in Electrical Engineering or Electrical Engineering Technology and the ability to travel 50% - 75% both domestically and internationally.

Spang & Company has a strong corporate culture that is a great fit for high performers who want to excel. We have highly capable employees who work well as a team and an excellent retention rate. We provide competitive compensation and benefits. You can play a critical role in the work we do by applying your skills in a rewarding career with us.
