Registration Rates

IN-PERSON | Includes full access to 3 general sessions, concurrent education sessions, poster gallery, exhibit hall, networking, daily meal and refreshments, conference materials, closing reception, and post-conference access to all content (excluding pre-conference workshops) for up to 3 months

	Early Bird Rate (Thru 3/21)	Standard Rate (Thru 5/16)	On-Site Rate (After 5/17)
APIC Member	\$715	\$815	\$915
Non-Member	\$920	\$1,020	\$1,120

Register & Attend from Anywhere in the World!

VIRTUAL | Includes live streaming of 3 general sessions, live streaming of over 10 hours of selected concurrent sessions, real-time networking, digital conference materials, virtual poster gallery, and post-conference access to all content (excluding pre-conference workshops) for up to 3 months

	Early Bird Rate (Thru 3/21)	Standard Rate (Thru 5/16)	On-Site Rate (After 5/17)
APIC Member	\$615	\$715	\$815
Non-Member	\$820	\$920	\$1,020

Keynote Speakers

*Find Inspiration
at APIC25!*

Monday, June 16 | 8:00-9:30 AM MST

Dr. Sammy Ramsey

Beehives and Business: What Honeybees Teach Us About Teamwork

In his groundbreaking bee research, Dr. Sammy Ramsey uncovered the cause of the parasite pandemic in honeybees and also observed the ways honeybees work together to fulfill the needs and goals of the colony. Exploring teamwork from a new angle, Dr. Sammy Ramsey reveals the core tenets of teamwork in honeybee colonies while sharing actionable strategies for how organizations in any industry can apply honeybee lessons in teamwork and leadership to get their teams buzzing and ready to perform at the highest levels.

Tuesday, June 17 | 9:30 AM - 11:00 AM MST

Erin Welsh, PhD & Erin Allmann Updyke, MD, PhD

Science Communication Through Conversation

Erin and Erin began *This Podcast Will Kill You* in 2017. Over the last seven years with more than 200 episodes, they have reached millions of listeners around the world, scientists and non-scientists alike, and have worked towards demystifying how science is done to increase trust and understanding with the general public. In this keynote, Erin and Erin explore what is driving this rise in anti-science sentiment and what we're up against when it comes to addressing the widespread mistrust in science and scientists. They share some of their lessons in science communication, including the importance of scientific storytelling, how to tailor your explanation for a specific audience, and why admitting what you don't know is an undervalued strength.

Wednesday, June 18 | 12:00 PM - 1:15 PM MST

Rachel Sheerin

Burning At Both Ends: How to Love Your Work + Life (Again)

In a world where burnout has become a constant companion, it's time to take back control and rediscover the joy in our work and lives. Professional behavior analyst and burnout expert Rachel Sheerin empowers audiences to battle burnout and reignite their passion, happiness, and success. In this transformative keynote, attendees will embark on a journey of self-discovery, resilience, and renewal. Through humorous stories, inclusive and interactive activities, and proven strategies, Rachel provides a total reset for individuals and teams struggling with burnout. She explores the most common causes of burnout and reveals how they manifest in personal and professional lives. Attendees will gain the tools and insights needed to identify their burnout triggers and take decisive action to reverse their impact.

Pre-Conference Workshops

Boost your education with a pre-conference workshop. These sessions allow you to maximize your learning investment and contact hours and can be added to your registration or purchased as a standalone.

All pre-conference workshops are held in Phoenix on Sunday, June 15

A Focus on Water and Air: Design, Construction and Operation of Healthcare Infrastructure

Sunday, June 15 | 8 AM - 4:30 PM

\$405 Member/
\$505 Non-Member OR
Stand-Alone

This workshop will provide an overview of the design, construction, operation, and unique infection prevention considerations for plumbing and HVAC systems in healthcare facilities. Attendees will also learn about technologies and strategies that may be considered for sustainability, including potential benefits and possible infection-related risks.

Objectives | At the end of this session the learner will be able to:

1. Identify plumbing and HVAC design elements of interest to the infection preventionist
2. Integrate an understanding of basic plumbing and HVAC design and function to the daily operations and maintenance of a healthcare facility
3. Advocate for best practices and be aware of potential areas of concern involving the plumbing and HVAC systems during design, construction, and operation

Disinfection, Sterilization and Antisepsis: Principles, Practices, Current Issues, New Research and New Technologies

Sunday, June 15 | 8 AM – 4:30 PM

\$405 Member/
\$505 Non-Member OR
Stand-Alone

This program will present scientific and practical information related to the use of sterilization technologies, disinfectants, and antiseptics in healthcare settings. This international symposium will include lectures and panel discussions on the latest breakthroughs regarding cleaning/disinfecting of non-critical environmental surfaces as well as reprocessing semi-critical and critical medical devices. The presentations will discuss current issues associated with hand hygiene, disinfection, and sterilization in healthcare; special issues and solutions associated with reprocessing endoscopes and other medical devices; new technologies and products for disinfection, sterilization, and antisepsis; and the products to use to inactivate emerging pathogens (e.g., *Candida auris*, mpox, *C. difficile*, SARS-CoV-2, human papilloma virus). In addition to the lectures invited, panel discussions will be offered.

Objectives | At the end of this session the learner will be able to:

1. Discuss current issues associated with hand hygiene
2. Describe new technologies, issues, and standards (e.g., AAMI) for disinfection, sterilization, and antisepsis/hand hygiene
3. Examine the special issues for reprocessing semi-critical (e.g., endoscopes, examining internal channels) and critical (e.g., medical and surgical instruments) items.
4. Evaluate the role of surfaces (including floors, sinks, and portable equipment) in the transmission of viruses and epidemiologically important pathogens and the latest technologies in cleaning/disinfection/"no touch" room decontamination/continuous room decontamination to reduce the risk of healthcare-associated infections
5. Discuss new challenges in surface disinfection and instrument reprocessing (e.g., biofilms, surface irregularities, instrument staining, MIFU)
6. Discuss the shift from high-level disinfection to sterilization for endoscopes
7. Discuss issues and special problems associated with reprocessing medical and surgical instruments
8. Discuss special issues: HVAC infection control issues; interventions to reduce the risk of transmission of infections from sinks and other wastewater drainage sites; and environmental sampling
9. Discuss germicides to inactivate emerging pathogens (e.g., *Candida auris*, carbapenem-resistant *Enterobacteriaceae*, *C. difficile*, mpox, SARS-CoV-2, human papilloma virus) and contaminated germicides

Infection Prevention Regulatory Readiness

Sunday, June 15 | 8 AM – 4:30 PM

\$405 Member/
\$505 Non-Member OR
Stand-Alone

Few things cause more stress for an Infection Prevention & Control (IPC) leader than preparing for planned and/or unplanned regulatory survey events. Attendees can share their areas of concern in a collegial environment and reflect on effective strategies. This program will be of interest to Infection Preventionists from across the continuum of care, including acute care, long-term care, and ambulatory settings, a growing area of vulnerability for many organizations. This workshop will also benefit surveyors who want to deepen their understanding of contemporary infection prevention challenges.

Objectives | At the end of this session the learner will be able to:

1. Describe current and emerging regulatory trends related to Infection Prevention & Control.
2. Identify common gaps a surveyor may find in the environment of care.
3. Learn communication strategies to use with surveyors during and after a visit.
4. This interactive workshop will shed light on the continuous regulatory readiness process, including:
5. Presentations by regulatory experts and surveyors from various organizations.
6. Interactive discussion and skill-building opportunities for participants to enhance survey readiness to lead their facility through regulatory events confidently.

APIC Research Symposium

Join us at the inaugural APIC Research Symposium at APIC25 to connect with leading experts in infection prevention and stay on top of the latest research trends.

APIC Research Symposium

Sunday, June 15 | 8 AM – 4:30 PM

\$50 Member /
\$75 Non-Member OR
Standalone

Why Attend?

Gain Valuable Insights

Hear from the 2025 Distinguished Scientist Award recipient and experts in IPC-specific research.

Discover APIC's Research Priorities

Get an inside look at the new APIC Research Network, 2025 Megasurvey, and other key research initiatives for 2025.

Support the Next Generation

Help select the 2025 Graduate Student Research Scholarship Award recipient as finalists present their groundbreaking research ideas.

Expand Your Network

Engage with infection preventionists and peers driving innovation in the field.

Sessions Listing*

Immerse yourself in a dynamic and engaging learning experience, increasing your knowledge no matter where you are in your career.

The educational sessions at APIC25 cover key competencies that every IP needs, with topics that range from the fundamental learning necessary to advance patient safety in your facility, to the strategic and thought-provoking ideas that will take your career to the next level.

**For more information
on session tracks and types,
VISIT [ANNUAL.APIC.ORG](https://annual.apic.org)**

Tracks

Sessions are divided into learning tracks to help attendees understand the core competencies covered. Tracks include:

- 1** Antimicrobial and Diagnostic Stewardship
- 2** Disinfection and Sterilization
- 3** Education, Training, and Competencies
- 4** Emergency Preparedness
- 5** Environment of Care
- 6** Implementation Science and Research
- 7** Information Technology and Surveillance
- 8** Leadership Development and Program Management
- 9** Occupational Health and Wellness
- 10** Public Health and Health Policy
- 11** Quality Assurance and Performance Improvement

Exhibit Hall

EXPLORE THE IPC SOLUTIONS CENTER

The APIC25 IPC Solutions Center is dedicated to infection prevention, showcasing innovative products and services from more than 160+ companies. This bustling hub of solutions, ideas, and innovations is an exceptional way for you to discover the best products and services available.

Open all three days, the exhibit hall provides you with the chance for face-to-face interaction and product demos. Enjoy exclusive exhibit hours each day to learn about new science, technologies, advances, and products that provide solutions to infection prevention challenges and strengthen infection prevention programs.

Exhibitor Theater

The APIC Exhibitor theater is a great stop for bite-sized learnings from our exhibitors and partners. A full schedule of presentations can be found on the APIC25 website and conference app.

Solution Circles

Engage daily with solution providers who are adept at addressing the unique challenges faced by infection prevention professionals. Each day brings new circle discussions, ensuring a continuously evolving and relevant experience for all participants in the field of infection control.

APIC Expert Library

Ready to meet the movers and shakers of the infection prevention world at APIC25? Picture yourself in an engaging one-on-one session with a top expert, diving deep into your infection prevention challenges. Well, there's no need to just dream about it—make it a reality at the APIC Expert Library! Located in the IP Solutions Center, where you can “check out” an expert for a focused 20-minute chat. Explore a variety of critical topics such as Cleaning, Disinfection & Sterilization, Long Term Care, Public Health, Mentorship, Certification, and more. Don't miss out—swing by the APIC Expert Library to secure your spot!

Virtual attendees will also be able to peruse Exhibitors and the digital poster gallery on the online platform! Learn more about how these products and services can benefit your facility.

Networking and Events

APIC25 gives you ample opportunity to grow your influence and increase your network. At our official conference events and in the halls of the convention center, you'll meet, discuss, and exchange ideas with peers and colleagues from around the world.

MONDAY IS CHAPTER DAY:
Wear your chapter shirts, buttons, etc. to show your chapter spirit and pick up a special ribbon for chapters at Registration

	Sunday, June 15	Monday, June 16	Tuesday, June 17	Wednesday, June 18
7am		Morning Buzz	Morning Buzz	
8am		Call out at Opening General Session to celebrate chapter excellence award winners/chapter awards		
9am				Attendee Breakfast

6pm		Trivia Night at Hyatt Regency	Closing Reception at the Arizona Science Center	
7pm				
8pm				

Closing Reception at the Arizona Science Center

Tuesday, June 17 | 5:30-7:30 PM MST

We're excited to invite you to a special night of exploration, entertainment, and connection. Discover, dine, and delight in:

Exclusive access to exhibits

Live demonstrations

Delicious food and refreshing beverages

Networking Opportunities

Join your peers for a warm and relaxing evening under the Phoenix skies.

One reception ticket is included in your full conference registration. Limited additional tickets are available for purchase.

Don't miss this unique opportunity to mingle, unwind, and immerse yourself in an inspiring atmosphere.

We look forward to seeing you there!

APIC Central

Your first stop at APIC25! Network, engage, and access resources to maximize your conference experience.

Digital Poster Gallery & Oral Abstracts

See and hear what your fellow IPs have been working on! Over 100 presenters will be sharing new ideas and evidence-based practices in infection prevention and control.

APIC Store

Get in some retail therapy with APIC branded attire, products (stuffed germs, anyone?), and the latest publications and resources available. Open throughout the event, this is your one-stop-shop for everything APIC!

Chaos in the Canyon - Escape Room

Get ready to unleash the adventure at APIC 2025 in Phoenix with our “Chaos in the Canyon” escape rooms! Dive into the thrill across two uniquely challenging rooms, crafted for everyone from beginners to escape room aficionados. Imagine it's 4pm on a bustling Friday—can you navigate the unexpected twists and solve the critical issues impacting your patients' surroundings? It's not just an escape; it's a race to expand your knowledge and crack the codes under pressure. So gather your team, sharpen your wits, and join us for an unforgettable escape experience!

[Visit the website for the full schedule of events!](#) 🍷

Ribbons & Conference Bags

Stop by Registration to pick up your conference bag and ribbons.

Fill It Forward

APIC is amplifying the impact of reuse by partnering with Fill It Forward for 2025! APIC25 water bottles will be provided to each attendee at registration to help you beat the Arizona heat, and each time you refill the bottle and scan the QR code, you'll be assisting APIC in creating a positive impact on the environment while unlocking donations to Fill It Forward's charitable partners.

Hear what attendees of APIC24 are saying:

Attending the APIC conference as a brand new, solo IP was extremely rejuvenating. Getting to be in a space SURROUNDED BY OTHER IPS WAS REASSURING AND WE SHARED SO MUCH KNOWLEDGE. I'm very grateful I got to attend.

I attended virtually and am IMPRESSED WITH THE QUALITY OF PRESENTATIONS and the number available on the virtual platform.

It revitalizes and inspires me. This is a difficult job and sometimes makes you feel like the odd man out, especially when you're a lone IP. BEING WITH LIKE-MINDED PEOPLE AND HEARING THEIR STORIES GETS MY HEAD BACK IN THE GAME.

Don't miss out!
REGISTER FOR
APIC25 TODAY!

I liked going to all the education sessions and talking with other IPs about stuff at their hospitals. WE GOT LOTS OF NEW IDEAS FOR OUR FACILITY.

I appreciated the different vendor products and seminars that shows different ways to IMPROVE MY FACILITY WORKFLOW. I was able to identify different resources as I am new to infection control.
