

AGENDA

Date & Time	Title	Speaker
Day 1—Monday, October 9		
Venue: Conference Center, Sheraton Grand		
7:30–8:30 am	Attendee arrival and continental breakfast <i>APT will register attendees as they arrive at the hotel</i>	
8:30–8:40 am	Welcome, domestic announcements and introduction to the Workshop program (10 mins)	Coordinator
8:45–9:15 am	1- Opening Remarks: Disaster Management Cycle – Introduction – Resilience Definition (30 mins)	Coordinator
Session 1: Hazards and Response		
9:15-10:00 am	2- Heritage Professional Challenges as First Responders This presentation focuses on the unique challenges first responders encounter on heritage buildings following disasters and how engineers contribute to rescue phases. The presentation will cover training requirements to participate in search and rescue missions and highlight how having competent professionals involved with this activity not only saves more lives, but also protects more heritage from being lost.	John Dumsick
10:00-10:15	<i>Coffee break</i> (15 mins)	
10:15-11:00 am	3- Heritage at Risk - Improving outcomes for historic sites impacted by natural disasters This presentation will review realistic timelines and recovery phases following disaster events. The phases commonly following an event include Response Phases (1. search & rescue, 2. building assessments for occupation, etc) followed by Recovery Phases (1. Initial damage triage, 2. Clean-up, 3. Repairs & reconstruction). The presentation will include training requirements for volunteers and professionals seeking to assist after a disaster. This presentation will also discuss resources available to public, private and cultural sites seeking assistance after a disaster. The focus of the presentation will be on historic buildings with references to the wider array of disaster response resources for other needs.	Lori Foley

11:00-12:15 pm	4 – Global Case Studies: Earthquake damage in Aleppo, Syria and Beirut, Lebanon Blast This presentation will very recent disasters to show how the lessons discussed in other presentations applied to real-world examples. The severe damage observed in Aleppo and Beirut provide an excellent opportunity to discuss best practices for initial assessments following an event, how to triage damage and implement stabilization measures, and provide an update on current recovery efforts.	Michael Chalhoub Joe Kallas
12:15–1:15 pm	Lunch (60 mins)	
Session 2: Recovery		
1:15-1:20 pm	Introduction to the session (5 mins)	Coordinator
1:20-2:10 pm	5- Recovering from the Event This presentation will revisit timeline for events and discuss what does realistic recovery look like. The presentation will also focus on technical challenges and hangups facing historic sites following a disaster, and discuss how historic sites can meet those challenges, find funding, and fully recover from disasters. The importance of resilience, both in improving building performance and reducing the time for recovery, will be a major theme throughout the presentation.	Craig Bennett
2:10-3:00 pm	6- Planning and Preparedness – Lessons Learned How can sites better prepare for disaster and how can professionals assist with that preparation? This presentation will explore those questions through the Owner’s experience of historic properties. The results from these experiences will focus heavily on the tough lessons learned from recent events and considerations for future risks.	Trish Smith Kelly Ciociola
3:00-3:15 pm	Snack and Coffee Break	
3:15-5:00 pm	7- Hands on Response Training – HEART and NCPTT This session includes examples available for hands-on training opportunities. The presenters will show videos of these sessions, provide demos, and describe their services in more detail along with answering audience questions.	Staci Bowe

5:00–6:30 pm	Workshop Reception <i>Informal social for all WS attendees at the hotel.</i>	Optional event, may occur the eve of the workshop.
	Dinner on Your Own	
Day 2—Tuesday, October 10		
Venue: Sheraton Grand (AM) and UWashington (PM)		
7:30–8:30 am	Attendee arrival and continental breakfast	
Session 3: Mitigation & Resilience		
8:30-8:40 am	Introduction to the Session	Coordinator
8:40-10:10 am	8- Case Studies – Proactive steps to mitigate the impact of disasters Short format presentations covering lessons learned and/or best practices for projects involving different hazard types, such as flood, wind, fire, seismic, blast.	Will Teron
10:10-10:20 am	Coffee and snack break	
10:20-12:20	9- Table top training led by FAIC This session includes table top exercises taking lessons learned from other presentations to complete moderated group disaster scenarios. Group leaders will assign roles to participants and work through example disaster exercises focused on historic properties. The table top exercises will start with initial response to a disaster assuming no emergency preparedness plan exists for the example historic sites, go through the response and recovery steps following the event, and end with preparation of an emergency plan for future events.	Elaina Gregg
12:20–1:05 pm	Lunch (45 mins)	
Session 4: Up Close Look – Disaster Response & Mitigation in Seattle		
1:05-1:30 pm	Travel via Link Light Rail (Westlake to UW)	
1:30-2:00 pm	10A-Introduction to UW & Seismic Mitigation	Cale Ash UW Representative(s)
2:00-4:00 pm	10B-UW Disaster Response & Mitigation Projects	Cale Ash UW Representative(s)
4:00-4:30 pm	Wrap up and return to hotel via Link Light Rail	
4:30 pm	Adjourn
