PATRAM 25
JULY 27 - AUGUST 1, 2025

SAN ANTONIO, TX / SAN ANTONIO MARRIOTT RIVERCENTER

CONTINUING GROWTH TOWARD FUTURE TRANSPORT

Join us at **PATRAM 2025**

Professionals from around the world involved with the handling, packaging, and transportation of radioactive materials will gather in San Antonio, Texas for the **21st International Symposium on the Packaging and Transportation of Radioactive Materials (PATRAM 2025)**, July 27th - August 1st, 2025.

Take advantage of this unique opportunity to capture the attention of decision-makers from around the world. Targeted marketing at **PATRAM 2025** provides direct access to users, increased brand awareness, consumer insights, and networking opportunities with industry leaders. **PATRAM 2025** is an ideal platform to engage with the global community of radioactive materials experts, allowing you to leverage the marketing and sales power of an international network all in one place.

Message from the Chairs

PATRAM gives the representatives of industry, administrations, and research bodies worldwide the opportunity to meet and exchange views and information on all aspects of safe packaging and transportation of radioactive materials. This international exchange is one of the essential components to enhance the professionalism and international cooperation on radioactive materials packaging and transportation. It is held once every three years and only once every six years in the United States.

Worldwide interest in radioactive materials safety, security and transportation operations makes this symposium have a broad base of participants. In addition to the technical and regulatory community, the safe and secure transportation of radioactive materials is of great interest to the general public.

Opportunities for partnerships and problem-solving grow from informed and lively debate on transportation and packaging issues. We encourage you to have an impact on the global transport community by becoming a **PATRAM 2025** exhibitor and sponsor.

About *PATRAM*

PATRAM is the leading global series of symposia dedicated to the packaging and transportation of radioactive materials, uniting worldwide experts from government, industry, and research organizations to exchange information, knowledge, and insights.

PATRAM takes place every three years, alternately in the United States and a non-U.S. location. The PATRAM 2025 Symposium is hosted by the Institute of Nuclear Materials Management (INMM) in partnership with the World Nuclear Transport Institute (WNTI) and with the support of the U.S. Department of Energy, U.S. Nuclear Regulatory Commission, and the U.S. Department of Transportation, in cooperation with the International Atomic Energy Agency (IAEA).

With 600+ participants, this is the only international event dedicated to the exchange of information for packaging and transportation of radioactive materials!
