INSTRUCTIONS

To ensure accurate account credit after initiating your transfer please email (payments@pharmacoepi.org) a copy of the wire transfer confirmation from your bank, a copy of what you are paying for, and contact name and phone number.

International Transfers:

- Option 1: You must add USD 150.00 to your transfer amount to cover the cost of ISPE receiving a wire transfer or your account will not be fully settled; or
- Option 2: Pay via ISPE's no-fee wire transfer partner, Western Union. Please visit <https://gpx.globalpay.wu.com/ispe> for this option.

If permitted by your bank, include in your reference or memo field the reason for the payment (i.e., member dues payment for NAME). Avoid abbreviating instructions, names or beneficiary information.

When initiating payments, base your wire transfer on the amount to arrive in USD with ISPE and let your financial institution calculate the amount in your local currency. This will limit currency exchange differences that result in your account being left with a balance owing because the full USD amount is not received.

Our US tax identification number: 41-1688677
